

# *Journal Of Orthopedics*

Volume 3, Number 1, January – June 2011

## CONTENTS

### *Editorial*

**G. Cerulli and G. Potalivo.** Introducing levels of evidence to the journal..... 1

### *Clinical Study*

**N. Muzaffar, J-R. Yoon and Y.B. Kim.** Knee replacement in severe flexion deformity: the role of release and cut.. 3

### *Surgical Techniques*

**M. Berlusconi, F. Chiodini and L. Filippi.** The “45-degree” distal locking technique. A new time- and radiations-saving free hand technique for distal locking in intramedullary nailing..... 9

### *Basic Science and Research*

**B. Grigolo, G. Lisignoli, C. Cavallo, D. Desando, M. Cavallo, F. Vannini, R. Buda, S. Giannini and A. Facchini.** Hyaluronan-based scaffold for cartilage repair: from autologous chondrocytes to bone marrow concentrated cells..... 17

**L. Labey, B. Innocenti, P.D. Wong, P. M. Parizel, J. Victor and J. Bellemans.** Sensitivity of knee kinematics and soft tissues to quadriceps load near extension..... 27

**E. Kon, G. Filardo, A. Di Martino, L. D’Orazio, B. Di Matteo, F. Perdisa and M. Marcacci.** Current methods for articular cartilage repair..... 39

### *Review Articles*

**C. Scotti, S. Nobile and G.M. Peretti.** Biological materials for cartilage engineering..... 49

**S. Bianco, S. Magni, G Scarfi, F. Giron and R. Buzzi.** Central fractures of the talus: evaluation and treatment. 59
